Welcome to South Florida State Hospital in Pembroke Pines, Florida. This booklet provides basic information about the hospital. Its purpose is to help you and your family become more familiar with the campus, the mission of South Florida State Hospital, daily hospital activities, hospital guidelines, and other support services.

Your recovery is important to everyone… the hospital staff, your friends and family, and the community. Most of all, your recovery is important to YOU. Every aspect of your care is to help you recover and return to the community. You are the most important person in the process of moving towards wellness and recovery.

South Florida State Hospital became the nation’s first comprehensive privately managed public mental health facility in November 1998. The hospital’s non-institutional atmosphere not only improves the mental healthcare experience for patients and their families, but also plays an integral role in treatment and recovery.

South Florida State Hospital is also a nationally accredited hospital. It meets the regulatory standards of The Joint Commission, Agency for Health Care Administration, and Centers for Medicare and Medicaid Services.
Mission Statement

Please begin to think about the **SKILLS AND SUPPORTS** you want to develop while you are here. They are the “tools” you will learn to use to build your own recovery. Each of you has unique and individual needs. During your stay, you will begin a process of becoming involved in putting together a “toolkit” tailored to YOUR needs and goals. Everyone has strengths and gifts; that’s what YOU have to offer.

**SUCCESS AND SATISFACTION** are the goals of your treatment. Everyone here wants to see you succeed and return to the community satisfied with the new “tools” you have learned to use and with those skills and supports you may not have had before coming to South Florida State Hospital.

Finally, **CHOICE** is the cornerstone of your recovery. Know that you can choose to have hope for recovery and that you will need to make good choices while you are here. Every day you will have the opportunity to take responsibility for your progress towards recovery. These are some of the most important choices you will make.

South Florida State Hospital Mission Statement

“To Empower Persons Served To Acquire And Use The Skill And Support Necessary To Achieve Maximum Independence, Success, And Satisfaction In The Community”

Admission

Upon arrival at the hospital, you will be seen in the Admission Office. You will talk with several health care providers including the admission coordinator, social worker, psychiatrist, psychologist, recovery planner, and nurse practitioner. The admission coordinator will orient you to the hospital, carefully explain the treatment you will receive, and obtain your consent for that treatment. You will be asked to sign admission forms and copies will be provided to you. You will be encouraged to send all valuable items home with your family, otherwise they will be kept and safely secured for you in our property storage room.

Once admitted, you will have your picture taken and be given an identification bracelet to be worn until discharge. This bracelet has information that will help staff care for you. It assures that you will receive the treatment, diet and medications that are specifically for you. If you lose it, please let staff know so that it can be replaced. You will be assigned to a unit and will be escorted there when the admission process is completed. Staff there will show you around and assign you to a bedroom. You may have a roommate.
The use of the word “Recovery” does not usually mean a cure. Rather, it means a kind of re-adaptation to the illness that allows life to go forward in a meaningful way. It is a deeply personal, unique process of changing one’s attitudes, values, feelings, goals, skills and roles. This concept supports a person’s ability to be able to live a satisfying life even with the limitations caused by the illness.

As part of the psychosocial rehabilitation programming, Correct Care, LLC/South Florida State Hospital is committed to implement the Illness Management and Recovery (IMR), a SAMHSA evidenced based curriculum. IMR is a standardized, curriculum based intervention in which individuals with a serious mental illness learn how to become active and informed participants in their treatment in order to gain control of their lives. It is designed to teach persons served how to more effectively manage their psychiatric disorders by incorporating evidenced-based practices through a structure curriculum. The curriculum is taught using motivational, educational, and cognitive-behavioral strategies. IMR is used in conjunction with Treatment Team Solutions and Solutions for Wellness Curriculum, also evidenced-based practices.
CODEP Program
The CODEP Program (Co-Occurring Disorders and Education Program) is a specialized program that integrates treatment for those who have co-occurring mental health and substance abuse issues. The goals of this program are for you to learn relapse prevention strategies and the benefits of sober living.

Enrichment Programs
The Enrichment Department provides various activities including recreation, art, music and dance. You can choose activities you would like to participate in. The Enrichment Department schedules a variety of activities and produces a monthly “Programs Calendar.” It is posted on each residential unit.

Therapeutic Job Program
We offer persons served the opportunity to work and earn money in one of the various positions that are available. The goal of this program is to increase your self-esteem, dignity, and integrity by offering you the personal and job-related skills required to be able to work in the community.
The Recovery Team meets monthly on each unit. You will be asked to attend along with any family members that wish to be involved in your care. The Recovery Team consists of several members of the clinical staff, and they are responsible for your treatment. They are as follows:

**Psychiatrist:** Your medical doctor, who is responsible for medical decisions. These may include anything related to your medications, mental and physical health needs.

**Psychologist:** Your psychologist, when needed, is responsible for behavior management, psychological testing, and psychotherapy.

**Recovery Plan Specialist:** Your recovery plan manager is responsible for coordinating services and supports as well as keeping other team members and hospital staff up to date on your progress.

**Social Worker:** Your social worker is responsible for coordinating issues related to your benefits and entitlements, money, and discharge planning.

**Nurse:** Nurses provide support, monitoring and observation of your physical and mental status. They also administer and evaluate the effects of your medication.

**MHT:** Mental Health Technicians provide support, encouragement, assistance with daily activities, and ensure safety.

**Program Staff:** Program staff offer skills training, substance abuse education, social and recreational activities, and other programs.
Peer Counselors & Advocacy Services

Advocacy is the act or process of advocating or supporting a cause, purpose, or proposal.

Forest Park is your source for a peer advocate to help with any problems or issues you may have about the service and treatment you receive at South Florida State Hospital. You can request advocacy services on a walk-in basis at Forest Park when they are open. After hours, you can leave a message on the Advocacy Hotline by calling extension #3350 and your call will be returned within 24 hours. Peer Counselors will come to the units after Forest Park is closed.

Consumer Affairs Council & Forest Park Advisory Committee

The Consumer Affairs Council and Forest Park Advisory Committee meet monthly to discuss issues important to all persons served at South Florida State Hospital. Each unit has a person served representative who attends the monthly meetings. Both groups provide feedback and suggestions to the Hospital Administration about any issues of concern and about activities, events, and services at the Forest Park Drop-In Center. Their goal is to be a resource for recovery for all. It is important for Hospital Administration to hear your concerns. If you have an interest in serving as your unit representative, please let your team know.

Forest Park Drop-In Center

Forest Park Drop-In Center is a safe, peer-run place for you to visit, socialize, and choose activities of your liking. The Drop-In Center has something for everybody, whether it's shooting a game of pool, watching TV, playing ping-pong, or working on an art project.

Our goal is to provide peer support, mutual self-help, and advocacy in a safe, supportive atmosphere.
Therapeutic, Spiritual, & Barber Services

The Psychology Department provides a variety of therapeutic services in order to meet your needs. These may include:

**Group Psychotherapy** – A variety of psycho-educational groups are available for persons served. Some of these include, but are not limited to:

- Dialectical Behavior Therapy Group
- Cognitive Behavior Group Therapy for Schizophrenia
- Healthy Boundaries & Relationships Group
- Spanish Cognitive Behavioral Therapy Group

**Spiritual Services**
A full time Pastor is available to all persons served in need of spiritual support, regardless of their religious affiliation. Religious services are held in the campus Chapel on Friday, Saturday, and Sunday.

**Beautician/Barber Services**
A beautician/barber is on campus to provide haircuts and other services, by appointment. Haircuts are free of charge. There are specialty services available for a fee. Contact a nurse on your unit to make an appointment.

**Town Center**
Town Center is the “hub” of our hospital and easy to find. There is a large covered gazebo and a clock tower. Four buildings anchor each corner of the Town Center Square. The cafeteria, beauty/barber shop, psychology group room, and Engagement center are located in Market Square Center, Building E.

**Access To Grounds**
Access to grounds at this facility will be granted/or limited based on individualized clinical assessment of each person served. Persons served will be granted as much independence as possible, within a context of safety and security.

- **Supervised Grounds** - Persons served must be escorted when off the unit at all times, with a maximum ratio of one staff to six persons served.

- **Independent Grounds** - Persons served may leave the unit unescorted at designated times.
Food And Nutrition Services
You will be served three meals and an evening snack each day. If a special diet is indicated, a diet technician will consult with you about it and teach you how to follow it after discharge. Food from outside the hospital is prohibited.

Meals are served in the dining room in the Market Center Building located in the Town Center. You are encouraged to eat there, but if you are unable to go to the dining room, your meals will be brought to your unit.

The hospital provides food services for all persons served. Every effort is made to accommodate special dietary needs or requests. Health considerations may affect the meals you eat, particularly if you are diabetic or are on a sodium (salt) restricted or fat restricted diet. Other factors include if you are at risk for choking, if you wear dentures or have difficulty chewing your food. Caffeine is not allowed, it may affect some medications and your sleep. Snacks are also provided on the residential units. If you have special dietary needs, please let your team know and every effort will be made to meet your request, subject to your doctor’s approval.

Voting
If you are legally able to vote, the forms to register may be obtained from Forest Park. Voting can be done by absentee ballot or staff will escort you to the polls, if permitted.

Communication
You have the right to communicate with family, friends, and others in the community. Many calls may be made from the telephones located in the day rooms on each wing of the residential units. Phone cards for long distance calls may be purchased at Forest Park. Indigent persons served may get one phone card per month from their social worker.

Reasonable rules may be put in place to ensure that all persons served have equal access to available telephones. Residential unit telephone numbers are listed by unit and wing. These can be found on each unit near the telephones. Staff at the nursing station can transfer calls to the telephone rooms. Family and friends may call the receptionist 954-392-3000 and be connected to your unit.
Telephone
Telephones for persons served are located on each wing of the residential units. The “Your Rights While Receiving Mental Health Services” poster located next to the phones outlines your individual rights and lists phone numbers of advocacy agencies. Access to telephones to contact any of these agencies below or your attorney is unrestricted 24 hours per day.

- Florida State Abuse Hotline (1-800-962-2873) toll free call
- Telephone Devices for the Deaf users (1-800-453-5145), for TDD/TTY users call Florida Relay Services at (1-800-955-8771)
- Auxiliary Aids and Services for the Deaf or Hard-of Hearing contact Single Point of Contact at (954-392-3000)
- Disability Rights Florida (1-800-342-0823) TDD/TTY (1-800-346-4127)

Under certain circumstances, telephone access may be restricted by your Recovery Treatment Team with approval of the Hospital Administrator. Reasons for restriction must be documented and evaluated for therapeutic effects. Such restrictions and reasons will be provided to the persons served, the attorney of the person served, the guardian, guardian advocate, and designated representative. Restrictions will be reviewed AT LEAST every seven (7) days.

Housekeeping
Staff is available on each unit to help keep the area clean. However, you are responsible for keeping your room neat and free of clutter.

Mail
You are allowed to send sealed, unopened correspondence. The hospital will provide postage for indigent persons served up to five (5) letters per month. Incoming mail will be opened in the presence of staff to ensure safety guidelines are followed. The Recovery Treatment Team may restrict access to mail with approval required from the Clinical Director and the Hospital Administrator.
Safety & Security

South Florida State Hospital is committed to providing a safe, secure, and comfortable environment for everyone. The hospital provides many safety features, but your conduct is the biggest part of making the hospital a safe place for everyone. All staff at South Florida State Hospital are dedicated to your safety. A variety of people work hard to make your stay here comfortable and secure, from your Recovery Team to the safety officers.

For your safety, there are times when it might be necessary to use video surveillance cameras to enhance monitoring by the staff. We will make every effort to assure your privacy. You will be notified if video monitoring is being used. Your clinical team will regularly evaluate with you the level of freedom you have to move around the hospital. The goal is to give you as much independence as you can safely handle.

If you have any questions about your living space, your unit, or the hospital grounds in general, please feel free to ask your recovery team members for help.

Risk Management & Safety Program

We believe all persons served are entitled to treatment in a caring environment that is free from harm. To maintain such an environment, all events which cause or may cause harm to persons served or property, are reported. This information is analyzed so that corrective actions may be taken. Our Risk Management and Safety programs are part of a larger Performance Improvement process to continuously improve the hospital services. If you see anything at the hospital that you feel is unsafe, please notify hospital staff promptly.

Transportation

The Transportation Department is in charge of ensuring safe and secure transports for persons served. Persons served are transported to all outside appointments, which could include, but are not limited to, medical appointments, court hearings, immigration, social security, discharges, and placement visits. Transportation is also responsible for transporting staff and persons served with therapeutic passes and for off campus functions.
Other Hospital Services

**Dental:** Dental staff are available to assist you with oral care needs. This may include services such as dental examinations, restorations/fillings, extractions, teeth cleaning, and dental care education.

**Podiatry:** Persons served with special needs such as ingrown toenails or ulceration with medical conditions affecting circulation are referred to the onsite podiatrist for treatment and foot care needs.

**Cardiology:** Persons served receive medical treatment and follow-up for heart conditions from the onsite clinic and offsite specialists.

**Physical Therapy Services:** When ordered by the physician.

Discharge Planning / Aftercare

Discharge Planning begins upon your admission to the hospital. You will become actively involved in your discharge planning with the **Social Worker**, as well as the Recovery Team. A **Recovery Plan Specialist** will work with you and the Recovery Team to develop and implement a Recovery Plan that meets your discharge needs as well as your treatment goals. The **Social Worker**, along with your Community Case Manager, will work with you to find placement that you can afford. As you get closer to discharge, you will receive a discharge planning report containing helpful information, referrals to community mental health and substance abuse services, crisis services, and other community support services.

Through the **Aftercare Program**, hospital staff will continue to help you make adjustments in the community upon discharge. This assistance will be for the first 60 days, or longer, depending on your needs. The **Aftercare Transition Specialist** that works with you will meet with you prior to your discharge. Please discuss any questions you may have regarding discharge with your Recovery Team.
Responsibilities

Participating in your own rehabilitation includes the following responsibilities:

1. To provide accurate information and to contribute to the development of your Recovery Plan.
2. To make choices about treatments that will help you progress toward returning to the community or fulfilling any obligations to the judicial system.
3. To be actively involved in the treatment process, including asking questions when you do not understand something. Be informed about your treatments and medication.
4. To follow rules, regulations, and instructions.
5. To care for yourself and to respect your personal environment.
6. To advocate for yourself or to ask someone to help you advocate for yourself.
7. To treat other persons served with respect.
8. To avoid doing things that would put you or others in danger.
9. To accept consequences of your behavior to the extent you are able.
10. To pay the hospital for your care, if you are the payee for any benefits you may have.

A summary of your rights in Florida’s Mental Health facilities is listed below:

1. The right to **individual dignity**
2. The right to **treatment**
3. The right to **express and informed patient consent**
4. The right to **quality treatment**
5. The right to **communication, abuse reporting, and visits**
6. The right to the **care and custody of personal effects**
7. The right to **vote in public elections**
8. The right to **ask for a court order (habeus corpus)**, to make complaints and grievances and to question any violations of your rights
9. The right to **report violations**
10. The right to **be safe and not be neglected nor abused**
11. The right to **participate in treatment and discharge planning**
12. Posting of notice listing and describing persons served rights
13. The right to **designate a representative**
Advanced Directives & Living Will
If you do not already have an Advanced Directive, your social worker will ask you if you wish to prepare one. An Advanced Directive is a document that alerts people about the decisions you have made concerning your treatment, and whom you may want to make those decisions for you, if you should not be able to make those decisions for yourself. You may also include end of life instructions to be put into place only if you become terminally ill. You may also say that you wish to donate your organs to someone who would benefit from them after you die.

Living Will
A “Living Will” is a document signed in advance, which tells your doctor whether you want life-prolonging treatments or procedures if you are in a terminal condition or a permanently unconscious state.

Personal Property
As part of the admission process, and prior to escorting you to your unit, security and a unit staff member will inventory personal and tangible property with you and document such on a Personal Effects Inventory Form. All tangible items will be recorded on this form and forwarded to the Business Office. You, security and unit staff must sign it and you will receive a copy. The original will be scanned into your electronic medical record.

Fee Assessment
The Department of Children & Families, which provides the funds to run this hospital, requires that we collect for care and treatment from those persons served who receive various benefits or income while they are in the hospital. The fee shall be assessed in accordance with Florida Statutes Section 402.33, which requires that you participate in the cost of services provided by the Department of Children & Families.

If someone wishes to send money to you for your personal use, it should be mailed directly to the Business Office for deposit in your account. Checks or money orders should be made payable to GEO Care, South Florida State Hospital and should have your name and unit written on them.

Mail them to:

South Florida State Hospital
Business Office
800 East Cypress Drive
Pembroke Pines, FL. 33025
Complaints Procedure

Informal & Formal Complaints
A process where persons served can request for information and address complaints they cannot resolve.

1. Informal Complaints
   Persons served wanting to request information and support regarding issues relating to treatment, care, money, rights, programs, medication, employment, discharge planning, etc. They can contact the Peer Specialist located at Forest Park. All requests made to the Peer Specialist will be addressed promptly by the Director of the Drop in Center. If at any time staff or peers are unable to provide satisfactory response to persons served, a complaint may be filed.

2. Formal Complaints
   Should the above process outlined above fail to yield satisfactory results, a complaint may be filed and forwarded to the Community Liaison for investigation. All complaints will include date and time of the issue and detail the remedy sought. Complaint forms may be obtained from unit staff member, Peer Specialist and/or Community Liaison.

Special Needs
We strive to accommodate special needs or disabilities by providing equal opportunity and access to our facilities, services, and treatment programs. Feel free to talk to any staff about special needs or concerns that you might have. If English is not your primary language or if you are hearing impaired, arrangements can be made for an interpreter. The Language Line and the TDD (Telecommunication Device for the Deaf) is available for your use. If assistance is needed or you have any questions, ask any member of your recovery team to speak with the facility’s Single Point of Contact (SPOC) who can assist.

Non-Smoking
Effective February 1, 2006, smoking is not allowed in or on the grounds of any State-funded psychiatric hospital, including South Florida State Hospital. Persons served who are new admissions and who have been smoking will be helped to quit. Smoking cessation materials, nicotine patches, and lozenges will be available.
Restraint & Seclusion
South Florida State Hospital uses seclusion and restraint only as a last resort and has been successful in nearly eliminating these events. You will learn how to identify your stressors and manage your behavior so that these interventions will not need to be used.

To help you, Comfort Rooms and de-escalation techniques are used. The unit Comfort Room is a safe and quiet place for you to relax, collect your thoughts, and listen to music or soothing nature sounds.

You, with your Treatment Team, complete a Personal Safety Plan form. This is to help identify what helps you when you are feeling stressed or agitated or angry. These specific strategies are discussed, shared with those caring for you, and placed in your electronic medical record.

Fire And Disaster Drills
These safety drills are held to train hospital staff and to help you know what to do if there is an emergency at the hospital. We ask that you follow staff directions during these times in order to provide for your safety.

All regular visits will be permitted for a period not to exceed one hour. Family and friends are encouraged to arrive 15 minutes before visiting time. Visitors will be escorted to the St. Augustine Building by Security. Visitation available following the 3rd day of admission.

Clothing/Laundry
Your unit staff can help you in obtaining clothing items for use while in the hospital. A referral from the nursing staff is necessary in order to obtain these. Washers and dryers are located on each unit for you to launder your clothing.
General Store
A General Store is open at Forest Park several times during the week. You may purchase many items such as snacks, radios, candy, socks, slippers, stationery, and other personal items. You may purchase items using the funds in your hospital account.

Library
The library is located in the Readiness Center, Building F. It contains many books, magazines, and several computers. It is available for your use from 1:00PM to 4:00PM Friday and Sunday.

Ethics Committee
The hospital Ethics Committee meets quarterly and as needed. If there are any ethical issues which you think need to be considered, please call the Staff Assistant to this committee, at extension 3025.

Family Support
Open House Family Meetings are for your family members or friends. This family support group meets quarterly, on the third Saturday of that month, in the Administration Building. The meetings provide information and education about mental health, discuss current plans for the hospital, address admission and discharges procedures, and answer questions about family involvement. Please call 954-392-3045 if interested in attending.

NAMI Support Group
A NAMI (National Alliance on Mental Illness) group meets on the third Saturday of each month. All families/friends are welcome at every meeting. Please call hospital at 954-392-3000 to let us know if you would like to attend.

Searches
South Florida State Hospital has a responsibility to search all visitors to the facility, in order to locate contraband items that may jeopardize the safety of individuals living and working at this facility.

NOTE: All items are subject to review for approval/denial prior to accessing the facility grounds. Items not permitted must be secured or removed from the facility prior to accessing the premises.
Your Part in Your Care & Safety / Helpful Tips About Medication

Your Part In Your Care & Safety
Everyone has a role in making your stay here at South Florida State Hospital safe. Your role includes speaking up if you have questions or concerns or if you do not understand your recovery plan. Participate and make decisions in your care and learn from your hospital experience. Know your medications and understand how they will help you.

If you experience any unsafe conditions or unanticipated outcomes in your treatment and/or medical care, it should be reported to your unit nurse/recovery team for review and appropriate action. You can play an important role in achieving the best outcome from your medication. To ensure medications are used safely and effectively, follow these tips:

- Maintain a list of all your medications and learn the names, purpose, dosage strength, and schedules of your individual medications.
- Maintain a list of medications that you cannot take (for reasons like allergic reactions) and be able to explain the reasons why.
- Don’t hesitate to ask questions regarding anything you do not understand or that does not seem right.
- Verify your understanding of proper medication use and effects by repeating this information to your health care providers (for example, during your recovery team meetings).

Helpful Tips About Medication
There are four (4) main types of medication used to treat mental illness. Here is a brief summary of each type of medication. More detailed information can be given to you by your nurse or doctor.

1. Antipsychotics: Examples include: Risperdal, Seroquel, Haldol, Zyprexa, Geodon, Abiligy, Invega. These medications lessen hallucinations (voices), stabilize mood swings, aid you in concentration, lessen paranoid and bizarre thoughts, and help you to be able to care for yourself.

2. Antidepressants: Examples include: Lexapro, Prozac, Effexor, Wellbutrin, Paxil. These medications help lessen the symptoms of depression that last at least two weeks such as: being withdrawn, change in eating or sleeping habits, thoughts of harming self, and feelings of hopelessness.

3. Mood Stabilizers: Examples include: Lithium, Depakote, Tegretol, Trileptal. These medications even out your mood, preventing the real high and low mood swings that you may experience and that your family might notice.

4. Antianxiety: Examples include: Vistaril, Klonopin, Ativan, Buspar. These medications are used to decrease severe anxiety and calm nerves. These can produce physical and psychological dependence and withdrawal symptoms. If you are addiction prone or an addict, you should be under careful observation when taking these medicines.

We care about your safety and well being. To ensure continuity of care, we have physicians on call 24 hours a day, 7 days a week.
Contraband Materials

Contraband
The list below identifies the most concerning items considered to be **Contraband**. They are not allowed on the grounds of the hospital. This is not an all inclusive list – refer to the “items allowed” list for clarification on other contraband. The list of the “items allowed” will be provided by the security staff.

1. Any intoxicating beverage that causes or may cause an intoxicating effect.
2. Any controlled substance, as defined in Chapter 893, F. S.
3. Any firearm, explosive device, knives, deadly weapon, or instrument customarily used, or designed to be used, as a weapon, except authorized work items, which are carried on the person or in a vehicle of on-duty law enforcement officers.
4. Any property of the state or Correct Care, LLC. in a person’s possession, which was obtained without prior authorization and approval from the persons responsible for the safekeeping of that property.
5. Any unauthorized camera, voice recording instrument, or item which may violate the confidentiality or privacy of an individual is considered contraband, but may be authorized with the expressed and informed consent of the Hospital Administrator.
6. Any item used to ignite a fire, (i.e., cigarette lighters or matches are contraband.)
7. All tobacco products are contraband (i.e., cigarettes, chewing tobacco, snuff, cigars, etc.)
8. Cell phones are not permitted.

Introduction or possession of the items listed above on the grounds or buildings of South Florida State Hospital may be considered a criminal infraction of the law that could result in prosecution.
